

Storyboard

①

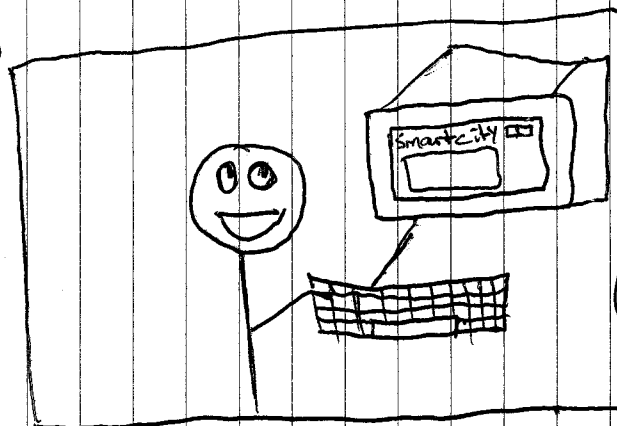

User wishes to look for all universities and libraries in their area but there isn't any app or website available

③

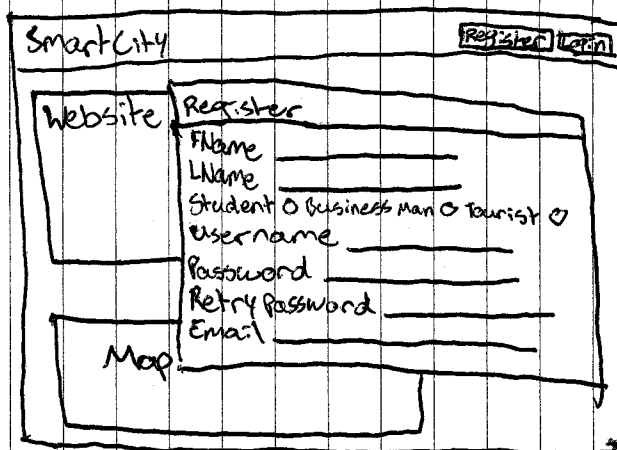

The user is appealed by the website due to its colours and description and of what it offers. The user decides to register an account,

②

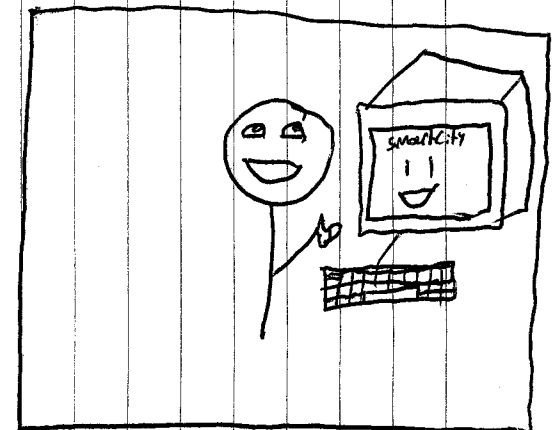

User comes across SmartCity. It says it offers just what the user is asking for

④

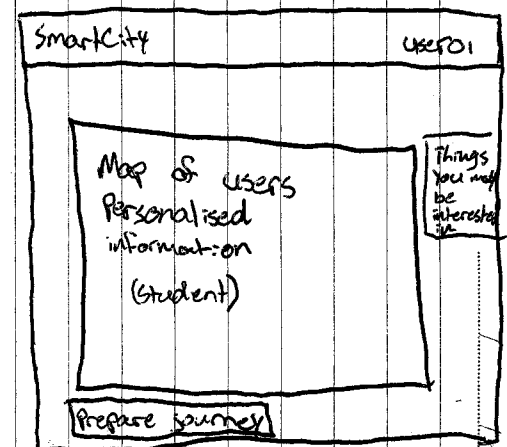

A register box pops up over the website for the user to complete. The user is pleased with how easy to set up it is.

⑥

User is fully satisfied with SmartCity

⑤

User is able to easily look at their wanted destinations, in this case universities and libraries. The user is super satisfied.
